

2021 FAE FALL FORUM FACING THE FUTURE

OCTOBER 1-2, 2021
RITZ-CARLTON NAPLES

register by september 3 for reduced fees

the official meeting of the
Florida Association of Endodontists
www.flendo.org 850.391.9310

FAE FALL FORUM SPEAKER PROGRAM

Friday, October 1, 2021

9:00 am-10:30 am Endodontic Decisions: Should I Save This Tooth? 1.5 CE

Rory Mortman, DDS

Root canal treatment is a predictable procedure. If we remove the bacteria, obturate the canals and finish with a sound coronal restoration, our success rates are over 90%. So, why are we extracting teeth that could be saved in favor of a dental implant? During this lecture, Dr. Mortman presents clinical cases of successful endodontic treatment in teeth that may have been extracted otherwise.

11:00 am-12:00 pm How to Better Diagnose & Treat Cracks in Endodontics 1 CE

Joseph Chikvashvili, DDS

Cracks are one of the hardest things to locate and accurately diagnose for most clinicians. They are often blamed for numerous endodontic and non-endodontic failures alike, and often wrongly so. During this presentation, Dr. Chikvashvili hopes to dispel some of those myths while allowing for the clinician to learn certain patterns that can better help them predict when cracks might occur. Alternative treatments and ways to circumvent misdiagnosis and needless treatment are discussed. Objectives include: learning what tools can help diagnose cracks; better assessing patterns common in cracked teeth; discussing alternative treatment methods for cracked teeth; and giving the clinician confidence to better diagnose and test cracked teeth.

12:00-1:30 pm Lunch & Learn - Ransomware & Cybersecurity: Decrypting the Myths 1 CE

Bryan Currier

This Lunch & Learn provides a summary of requirements to maintain privacy of Protected Health Information (PHI). Mr. Currier offers practical steps and advice crucial to ensure compliance with HIPAA and HITECH regulations, in addition to keeping your business' data safe. Upon completion, attendees will: recognize best practices to protect PHI; understand how to identify potential Ransomware and other Cybersecurity risks; and identify possible security risks in your businesses. Additional fee required. *Speaker sponsored by Advantage Technologies.*

Saturday, October 2, 2021

8:00-9:15 am Acute Myofascial Pain & the Endodontic Connection 1 CE

Rahim Karmali, DDS

Myofascial pain often mimics pain of endodontic origin. Differentiating between the two can be difficult. Often, these two types of pain occur in tandem, which further confuses the topic. Proper diagnosis and management will lead to significantly fewer post-op complications. Ultimately, this leads to a better experience for you, the patient and your referring doctors. Following this presentation, attendees should understand: myofascial pain and how it mimics endodontic pain; the correlation between myofascial pain and post-of flare ups; and how to diagnose and manage acute myofascial pain.

9:30-10:30 am Image Guided Treatment Planning: Endodontics With Precision 1 CE

Pushpak Narayana, DDS, MDS

Endodontic Access is an integral step in endodontic therapy and plays a major role in the Endodontic-Endo-Restorative-Prosthetic (EERP) continuum. The paradigm shift towards conservation of tooth structure and minimally invasive procedures among quality oriented restorative dentists has piqued interest within the endodontic community. During this case-based presentation, Dr. Narayana reviews the nuts and bolts of directed dentin conservation, utilizing image guided treatment planning and execution. Attendees will gain insight into the different methods and challenges during the continued learning process. Objectives include: reviewing the planning process and precise intervention; understanding the different options available in image guided endodontic treatment; and understanding the advantages and challenges with implementing image guided endodontic treatment.

11:00 am-12:15 pm Resorption Untangled 1 CE

Rahim Karmali, DDS

Resorption is a perplexing clinical dilemma. Due to a lack of understanding, it is often misdiagnosed, miscategorized and grossly mismanaged. This leads to poor patient and clinical outcomes. During this presentation, Dr. Karmali offers a clinically based focus on case management and decision making, while untangling the pathophysiology of resorption and its categorization. Following this presentation, attendees should understand: the pathophysiology of resorption; how resorption is categorized; and different treatment strategies/tactics.

1:30-2:45 pm Root Amputation: What is Possible 1 CE

Pushpak Narayana, DDS, MDS

Traditionally, root amputation procedures were used to salvage or prolong the life of the complex restoration which otherwise needed to be sacrificed. Often times the procedure is employed as an afterthought. Challenging clinical scenarios and past, dated experiences frequently shape and limit the practitioner's understanding of what is attainable with root amputations. Actual patient centered outcome of these procedures continue to remain unanswered. In this case-based presentation, Dr. Narayana not only analyzes the cases treated in his private practice setting, but also reviews the clinical management. Objectives include: reviewing the planning process and precise intervention; reviewing the cases treated in the presenter's private practice setting; and understanding what is possible with root amputation procedures when planned ahead.

3:00-4:00 pm Social Media Mentoring: A Paradigm Shift in Dental Education 1 CE

Craig Anderson, DMD

Historically, dental education has been delivered in a top down manner. Students were taught from historical dental textbooks and CE was given by dental educators in formal settings. As the internet evolved, social media shifted the paradigm such that educational material can be shared with people all over the world. This created an environment where each of us now has the tools required to be a dental educator. In this lecture, Dr. Anderson focuses primarily on Instagram as a vehicle for sharing clinical cases that elevate the specialty of endodontics and provide mentorship for general dentists and endodontists alike. Dr. Anderson discusses his experiences, strategies for success and the potential pitfalls of using social media, as well as the value of mentorship and strategies to improve performance. Attendees can expect to learn: how influencer culture and social media are affecting all aspects of society, including dental education; about the concept of deliberate practice and the value of proper mentorship; and how to utilize social media platforms such as Instagram as a modality for teaching clinical endodontics and mentoring other dentists.

4:30-5:30 pm Hopeless Tooth? Think Again 1 CE

Nishan Odabashian, DMD, MS

Dentists are often confronted with the decision of whether to recommend endodontic treatment or extraction for teeth that seem hopeless. Whether these teeth are present with a large or very large peri-radicular lucencies, traumatic injuries or severe resorption, Dr. Odabashian highlights teeth that seemed hopeless and how they were treated. Knowing that teeth in similar state can have the possibility to be rehabilitated, will allow the restorative dentist to have options as to how to approach treatment and refer to the appropriate specialist as needed. During this presentation, Dr. Odabashian shoes a series of cases in which teeth, that would otherwise be extracted, were rehabilitated with endodontic, orthodontic, and restorative treatment and include recalls of a minimum of 5+ years. Decision making processes and treatment protocols are discussed and presented; with the intent of showing "what is possible" with endodontic treatment even when teeth seem hopeless, as well as discussing lessons learned while treating these teeth.

FALL FORUM SPEAKERS

Craig Anderson, DMD

Joseph Chikvashvili, DDS

Bryan Currier

Rahim Karmali, DDS

Rory Mortman, DDS

Pushpak Narayana, DDS, MDS

Nishan Odabashian, DMD, MS

Craig Anderson, DMD: DMD, University of Mississippi Dental School; general practice residency, Veterans Administration Hospital, Portland, Oregon; endodontic residency, New York University College of Dentistry; Diplomate, American Board of Endodontics; instructor, Instagram @southmsendo; private practice.

Joseph Chikvashvili, DDS: DDS, University of Maryland, College of Dental Surgery; general practice residency, Newark Beth Israel Medical Center, Newark, New Jersey; certificate of advanced graduate study, Boston University, Goldman School of Dental Medicine; implantology certification, New York University; president, Essex County Dental Society; immediate past president, New Jersey Association of Endodontics; director of endodontics, Newark Beth Israel Medical Center; private practice.

Bryan Currier: CEO, president, Advantage Technologies, an innovative IT services company with a focus on dental and medical practice technology integration.

Rahim Karmali, DDS: DDS, University of Washington; dental officer, United States Navy; endodontic residency, Long Beach Veterans Administration Medical Center; past president, International Academy of Endodontics; co-founder and chairman, Denver Academy of Integrative Dentistry; private practice.

Rory Mortman, DDS: DDS, New York University College of Dentistry; general practice residency, Veterans Administration Medical Center, Miami, Florida; endodontic residency, New York University College of Dentistry; past faculty, New York University College of Dentistry, departments of endodontics and radiology; past co-chair and current chair, endodontic section, Atlantic Coast Dental Research Clinic; diplomate, American Board of Endodontics; fellow, Pierre Fauchard Academy; fellow, American College of Dentists; fellow, International College of Dentists; private practice.

Pushpak Narayana, DDS, MDS: DDS, Rajiv Gandhi University of Health Sciences, India; endodontics fellowship, University of Florida College of Dentistry; endodontic residency and MDS, Rutgers School of Dental Medicine, New Jersey; faculty, Rutgers School of Dental Medicine; diplomate, American Board of Endodontics; private practice.

Nishan Odabashian, DMD, MS: DMD, Tufts University School of Dental Medicine; endodontic residency and MS, Loma Linda University School of Dentistry; faculty, Loma Linda University School of Dentistry; past district VII director, American Association of Endodontists; past president, Glendale Academy of Dentists and California State Association of Endodontists; private practice.

FAE FALL FORUM SCHEDULE AT A GLANCE

Friday, October 1, 2021

- 7 am Exhibitor Registration
- 8 am Attendee Registration / Breakfast
- 9-10:30 am Endodontic Decisions: Should I Save This Tooth? Rory Mortman, DDS
- 10:30-11 am Morning Break
- 11 am-12 pm How to Better Diagnose & Treat Cracks in Endodontics, Joseph Chikvasvili, DDS
- 12-1:30 pm Advantage Technologies Lunch & Learn - Ransomware & Cybersecurity: Decrypting the Myths, Bryan Carrier
To attend the Lunch & Learn, you must indicate that you wish to attend on your Registration Form (Section C). Additional fee required.
- 12-4 pm FAE Golf Outing, Tiburón Golf Club
To attend the FAE Golf Outing, you must indicate that you wish to attend on your Registration Form (Section D). Additional fee required.
- 5-6 pm FAE Welcome Reception — Join your peers for a SAFE, fun, and relaxing time to unwind and catch up!
To attend the FAE Welcome Reception, you must indicate that you wish to attend on your Registration Form (Check box in white bubble).

Saturday, October 2, 2021

- 7 am Attendee Registration / Breakfast
- 8-9:15 am Acute Myofascial Pain & the Endodontic Connection, Rahim Karmali, DDS
- 9:30-10:30 am Image Guided Treatment Planning Endodontics With Precision, Pushpak Narayana, DDS, MDS
- 10:30-11 am Morning Break
- 11 am-12:15 pm Resorption Untangled Rahim Karmali, DDS
- 12:15-1:30 pm FAE Business Luncheon Meeting With Special Guest AAE President Dr. Alan Law *To attend the FAE Business Luncheon Meeting, you must indicate that you wish to attend on your Registration Form (Check box in white bubble).*
- 1:30-2:45 pm Root Amputation: What is Possible? Pushpak Narayana, DDS, MDS
- 3-4 pm Social Media Mentoring: A Paradigm Shift in Dental Education, Craig Anderson, DMD
- 4-4:30 pm Afternoon Break
- 4:30-5:30 pm Hopeless Tooth? Think Again! Nishan Odabashain, DMD, MS

DATES TO REMEMBER

August 30, 2021

Book your room at The Ritz-Carlton Naples

September 3, 2021

Early registration deadline and cancellation deadline for 2021 FAE Fall Forum

September 14, 2021

Late registration deadline for 2021 FAE Fall Forum

FAE FALL FORUM REGISTRATION

STEP 1: Registration Form (reprint for multiple registrations)

A Registration Information Must cancel in writing by 9/3/21. \$50 cancellation fee.

Name _____

Badge Nickname _____ Email _____

Address _____

City _____ State _____ Zip _____

Phone (_____) _____ Fax (_____) _____

B Registration Fee: Pick One (Registration Closes 9/14/21)

EARLY REGISTRATION

on or before 9/3/21:

____ FAE Member \$300

____ FAE Non Member \$430

____ Resident/Full Time Faculty* \$100

OR

LATE REGISTRATION

after 9/3/21:

____ FAE Member \$350

____ FAE Non Member \$480

____ Resident/Full Time Faculty* \$150

* ONLY Full Time Faculty & Residents may register in this category.

Part Time Faculty must register as Member or Non Member.

C Lunch & Learn Fee:

____ Friday Lunch** & Learn \$45

One fee covers admission to Friday Lunch & Learn, worth one (1) CE. Boxed Lunch included.

Lunch & Learn registrants pick one boxed lunch choice (choices on the right). Boxed lunch includes sandwich choice, chips, fruit salad, dessert, and bottled water.

- Roast Beef, Smoked Gouda, Onion Marmalade, Potato Roll
- Smoked Turkey, White Cheddar, Avocado Mayo, Lettuce, Tomato, Wheat Wrap
- Grilled Portobello, Zucchini, Roasted Peppers, Mozzarella, Pepper Jack Cheese, Avocado Cream, Basil Wrap

D Golf Fee:

____ Friday Golf & Lunch** \$150

Reconnect with friends for an ultimate golf experience during prime season at the esteemed Tiburón Golf Club, featuring Greg Norman-designed courses in a Certified Audubon Cooperative Sanctuary. Fee includes shuttle to/from the Tiburón, boxed lunch, greens fees, cart, range, and locker room use. Pick one:

- Roast beef/Cheddar Chicken caprese baquette Veggie baguette

** Contact FAE at 850.391.9310/endoflorida@gmail.com with dietary restrictions.

Modified menus will incur additional fees for the attendee.

PAYMENT INFORMATION

Credit Card # (Visa / Mastercard / AmEx):

Expiration Date: _____

CV # _____ Billing Zip: _____

Name on Card:

Authorized Signature:

You may also send a check for payment with your registration form.

Registration Fee (B): \$ _____

Lunch & Learn Fee (C): +\$ _____

Golf Fee (D): +\$ _____

Total Fee: \$ _____

Attending Fri Night Reception**? Y N

Attending Sat Member Luncheon**? Y N

STEP 2: Send Your Registration Form to FAE

by 9/3/21 Early Reg/
by 9/17/21 Late Reg.

Mail 2910 Kerry
Forest Parkway,
D4-222, Tallahassee,
FL, 32309
Fax 850.391.9311.
Email
endoflorida@gmail.com

per night if reservations are made by 8/30/21. Simply call 877.590.8187 and mention the FAE or Florida Association of Endodontists. Online booking is also available at the following link:
<https://book.passkey.com/go/FloridaEndodontists2021>

STEP 3: Book Your Room at The Ritz- Carlton, Naples

Fall Forum attendees may stay at The Ritz-Carlton, Naples for \$229
